Camp Fires and Cooking

Please use the established fire rings to build a fire; please do not move these rings and make your own using rocks on the ground. Firewood is available for purchase at our General Store, located in the lower level of our main lodge. Tree cutting at Sipapu is strictly prohibited, and please take every precaution to ensure your fire is completely out when you are finished using it. Our grills are provided for your cooking convenience; please do not remove them.

Water and Garbage

Drinking water is available on the large, red building next to our fishing pond. Trash bins are located next to the motel; please help our staff and those guests who will arrive after you by leaving your campsite clean.

Quiet Hours

Quiet hours are from 10 p.m. to 7 a.m. – please be courteous to those around you by keeping noise to a minimum and by turning off your generators during this time.
